

Classic Granule Colors

DrivewayMakeOvers.com™ Classic Color Granules are a unique, natural mineral product, the only type of granule that meets the toughest test of time, weather and the marketplace. Our granules are dense and non-porous, resist ultra-violet light and are tough enough to stand up under handling. And they hold the long-lasting ceramic coatings added to create the ever-growing selection of colors demanded by the swimming pool industry.

Driveway Cleaning and Power Washing

We provide driveway cleaning and restoration services in the greater Austin area. Power washed driveways greatly enhance the appearance and reduce the aging effects on driveways for enhanced curb appeal. We use a special mixture of hot water and cleaning solutions to remove the aging effects from concrete and brick driveways. Enhancing curb appeal is one of the best ways to increase the value and desirability of your home. Contact us today for a free estimate.

Sidewalk Cleaning

Pressure washing can remove most stains on sidewalks and driveways, bringing back the look of a freshly formed walkway or driveway. Moss and algae from grass and landscaping, or even on a tile roof, can be removed as well. Bird droppings are also frustrating, and this problem can be washed away as well. Not only does this sidewalk look better, but is also safer to walk on and helps to keep the sidewalk from deteriorating faster.

Your Driveway is your welcome mat to the world
